

NOTICE TO WHILE-YOU-WAIT APPLICANTS ADDITIONAL FEE FOR WHILE-YOU-WAIT PLAN REVIEW SERVICE

December 3, 2018

Public Works offers a “While-You-Wait” plan review service that allows applicants to apply for a permit for a qualifying construction project and wait while the plans are reviewed. If the plans can be approved, the permit is issued the same day allowing a quick construction start.

Beginning December 3, 2018, Public Works will start charging an additional fee to applicants requesting the special While-You-Wait plan review service. The While-You-Wait plan review service fee will be \$50.00 for qualifying projects involving a single family dwelling, two family dwellings, or townhouses. The While-You-Wait plan review service fee will be \$ 100 for all other qualifying projects. This fee is in addition to the regular permit fees.

Please refer to the attachment for types of projects that may qualify for the While-You-Wait plan review service.
